2. Paragraph 3 of [redacted] memo raises the question whether STAP is doing what you want and how you want it. [redacted] is sending you a separate memo with his own recommendations on the STAP and its future. Depending on your reaction to [redacted] suggestions, you may not wish actually to discuss this subject with the STAP on Monday.

3. Of urgent importance to me is whether there is any particular substantive support you wish for the meeting on Monday. You have the SNIE on Chemical Warfare and you have the STAP report on SAFE as well as a memo from Harry Fitzwater on efforts to assess "whither SAFE?" Please let me know if there is anything else that you want as backup in preparation for your discussion.
